7 October 1963

MEMORANDUM FOR: Executive Officer/OSA  
SUSJECT: Rotation Plans on USAF Details Assigned  
to OSA

1. Attached is a memorandum from DDCI to DD/S&T which we believe is self-explanatory.

2. Would you undertake the necessary staffing to draw up a rotation schedule for those Air Force details whose third year of assignment to this Agency will expire between the period 1 April to 1 September 1964. Will you further indicate on that schedule whether a replacement in kind is desired. In this connection it is my understanding that the Agency, if the facts properly support the request, will endeavor to arrange for a fourth year of detail. While DDCI quotes Colonel Geary as stating that certain of the officers whose tours will expire in the above-mentioned period might consider a continuation of their detail as a hardship, I would suggest that any officer whom you desire to retain for an additional year be queried and allowed to state his personal desire.

3. We would appreciate receipt of the requested information by 21 October 1963.
